

Name(s) shown on return	Social security number
-------------------------	------------------------

IMPORTANT:

- Read the instructions on the reverse side before attempting to complete this form.
- Do not complete this form unless you were required to pay estimated federal income tax for the 2012 tax year. See **"Federal estimated income tax requirement"** in **General Instructions**.

Part 1 - Exceptions to regular computation of underpayment

See the instructions for a description of each of the exceptions listed below. If one of them applies, fill in the applicable circle, complete Parts 2 and 3 as instructed, and attach Schedule ND-1UT to your return.

- | | |
|---|--|
| <p>A. <input type="radio"/> Qualified farmer (4th quarter payment required)</p> <p>B. <input type="radio"/> Federal annualized income installment method (Attach copy of Form 2210)</p> | <p>C. <input type="radio"/> Federal 4th quarter exception</p> <p>D. <input type="radio"/> Part-year North Dakota requirement</p> |
|---|--|

Part 2 - Computation of underpayment

1. Enter 2012 net tax liability (from Form ND-1, line 27, or Form ND-EZ, line 2)..... **1** _____
2. Multiply line 1 by 90% (.90) [or 66 2/3% (.6667) if a qualified farmer] **2** _____
3. Enter 2012 withholding (from Form ND-1, line 28, or Form ND-EZ, line 3) **3** _____
4. Subtract line 3 from line 1. **If less than \$500, stop; you were not required to pay estimated tax for 2012** **4** _____
5. Enter 2011 net tax liability (from Form ND-1, line 27, or Form ND-EZ, line 2). If no return was required to be filed for 2011, enter -0-. **If less than \$500, stop; you were not required to pay estimated tax for 2012** **5** _____
6. Total required payment. Enter smaller of line 2 or line 5. However, if you moved into North Dakota in 2011, fill in this circle \rightarrow and enter the amount from line 2 above **6** _____

If one of the exceptions in Part 1 applies, see the instructions to line 7 before completing the rest of this form.

Payment due date			
1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
April 15, 2012	June 15, 2012	Sept. 15, 2012	Jan. 15, 2013

Part 3 - Computation of interest (See instructions)

16. Interest computation:

a Enter date of payment (See instructions)	16a	
b Enter number of days from the payment due date to the date on line 16(a)	16b	
c Divide line 16(b) by 365 and round to three decimal places	16c	
d Multiply line 16(c) by 12% (.12) and round to three decimal places.....	16d	
e Multiply line 15 by line 16(d) and enter result	16e	
17. **Total interest.** Add the amounts in all four columns on line 16(e). Enter result here and on Form ND-1, line 39. (See instructions)..... **17** _____

General instructions

You may use Schedule ND-1UT to determine if you paid enough estimated North Dakota income tax by the payment due dates and, if you didn't, to calculate the amount of interest you must pay on the underpayment or late payment. The dates used on Schedule ND-1UT and in these instructions are for calendar year filers. Fiscal year filers should substitute corresponding dates.

Federal estimated income tax requirement.

Do not complete Schedule ND-1UT unless you were required to pay estimated federal income tax for the tax year. To determine if you were required to pay estimated federal income tax for 2012, see the 2012 Federal Form 2210.

Instructions for Part 1

Following are descriptions of the exceptions to the regular computation of underpayment listed in Part 1. If one of them applies, fill in the applicable circle.

Item A: Qualified farmer (4th quarter payment required)

This exception applies if you qualified as a farmer for federal estimated income tax purposes in 2012 and you were required to pay estimated federal income tax for the 4th quarter due on January 15, 2013.

Item B: Federal annualized income installment method

This exception applies *only* if you actually used the annualized income installment method to calculate the amount of your underpayment and penalty for federal estimated income tax purposes for 2012.

Attach a copy of the federal annualized income installment method worksheet (from 2012 Federal Form 2210) showing the amounts you computed for federal purposes.

Item C: Federal 4th quarter exception

This exception applies if you did not have to make the 4th quarter estimated federal income tax payment due on January 15, 2013, because you filed your 2012 federal income tax return and paid the remaining federal income tax due by February 1, 2013.

Item D: Part-year North Dakota requirement

This exception applies if you were a nonresident of North Dakota, or you moved into North Dakota during 2012, and you did not receive income subject to North Dakota income tax until after April 15, 2012. **Attach a statement describing your situation.**

Instructions for Part 2

Line 7

If one of the exceptions in Part 1 applies, enter on this line the appropriate amount(s) as follows:

- If **Item A** applies, enter the amount from line 6 in the 4th quarter column. Enter zero in the first three columns.
- If **Item B** applies, use the annualized federal taxable income determined on 2012 Federal Form 2210 to calculate an annualized North Dakota taxable income. Include any adjustments required or allowed under North Dakota tax law in the calculation. Enter the amount of estimated North Dakota income tax due by each payment due date calculated in the same manner as under the federal annualized income installment method on Form 2210.
- If **Item C** applies, enter 25% of the amount on line 6 in the 1st, 2nd and 3rd columns. Enter zero in the 4th quarter column.
- If **Item D** applies, the amount to enter in each column depends on when you first received income from North Dakota sources in 2012. If you received the income after March 31 and before June 1, 2012, enter one-third of the amount on line 6 in the 2nd, 3rd, and 4th quarter columns. If you received the income after May 31 and before September 1, 2012, enter one-half of the amount on line 6 in the 3rd and 4th quarter columns. If you received the income after August 31, 2012, and before January 1, 2013, enter the amount from line 6 in the 4th quarter column.

Line 8

Enter the amount of estimated tax paid and income tax withheld for each quarter. Unless you can show otherwise, one-fourth of the total amount withheld is deemed to have been withheld by each payment due date. If you elected to apply an overpayment from your 2011 North Dakota return to your 2012 estimated tax, enter the overpayment in the 1st quarter column; however, if you had attached a statement to your 2011 return requesting the overpayment to be applied to another quarter, enter the overpayment in the appropriate column.

Instructions for Part 3

Interest of 12% per year is charged on an underpayment or late payment of estimated tax. Interest accrues from the due date of the payment to the earlier of April 15, 2013, or

the date the estimated tax due is paid in full. In the case where an overpayment is applied to offset an underpayment, the overpayment is considered to have been applied as of the payment due date for the quarter in which the overpayment occurred.

In some cases, you may find it necessary to compute the interest on a separate worksheet, in which case you should skip lines 16a through 16d and enter the separately computed interest on line 16e in the appropriate column. **Attach your worksheet to Schedule ND-1UT.**

For purposes of computing interest, the amount paid for a particular quarter must be applied first to the amount due for that quarter. If the total amount paid exceeds the amount due, the excess must be applied to offset an outstanding underpayment, if any, from a previous quarter, starting with the earliest underpayment. In addition, in the case of a late payment, the interest on line 16e must be computed on the amount due on line 7 less any tax withheld included on line 8.

Line 16a

Except for a late payment or where an underpayment is offset by a subsequent quarter's overpayment, enter April 15, 2013. If there is a late payment and the amount of the payment equals or exceeds the amount of estimated tax due, enter the date of payment. If an underpayment is fully offset by a subsequent quarter's overpayment, enter the payment due date for the quarter in which the overpayment occurred. In other cases, more than one date may apply and it may be necessary to compute the interest on a separate worksheet, in which case you should skip lines 16a through 16d and enter the separately computed interest on line 16e in the appropriate column. **Attach your worksheet to Schedule ND-1UT.**

Line 17

If there is an amount on this line, you may not file Form ND-EZ; you must file Form ND-1. If there is an overpayment on Form ND-1, line 31, any interest due on Schedule ND-1UT will reduce the amount refunded to you. If there is a tax due on Form ND-1, line 35, any interest due on Schedule ND-1UT must be included in the balance due to be paid with your return. If there is no overpayment or tax due on your return, and if the interest due on Schedule ND-1UT is \$5.00 or more, the interest due on Schedule ND-1UT must be included in the balance due, and a check or money order for this amount must be submitted with your return.
